

# Garbage Separation and Disposal

Published April 2016

## Garbage Disposal Rules

- Please put "Burnable Garbage", "Plastic Containers and Packaging", and "Paper and Cardboard Containers and Packaging" into their respective designated garbage bags before putting them out for collection. The designated garbage bags can be purchased at supermarkets and convenience stores.
- Please put "Plastic Bottles (PET)," "Empty Glass Bottles," "Empty Steel Cans and Metal Items," and "Non-Burnable Garbage" into their respective designated garbage collection bags (with your name marked on them) before putting them out for collection. The designated garbage collection bags are available free of charge from the facilities listed to the above-right.
  - \*Please take your emptied bags home as soon as possible after collection.
  - \*Once you have filled your designated garbage collection bags, put the bags out and leave them on the ground rather than on the hooks. The hooks are for hanging the designated collection bags only after they have been emptied.
  - \*Organize your garbage by category before putting it out.
- As "Plastic Containers and Packaging", "Paper and Cardboard Containers and Packaging", "Plastic Bottles (PET)", "Empty Glass Bottles", "Empty Steel Cans and Metal Items" and "Aluminum Cans" will be recycled, please gently rinse them before putting them out for collection.
- Sort "Recyclable Paper" by kind and tie with a package knot (plus-shaped) before putting it out for collection.
  - \*On rainy days, please wait until the next collection date.
- Please put your garbage out in the designated locations by 8 am on collection days.

## What to Put Out at Designated Locations

### Burnable Garbage

Collected twice a week

**C**

#### Kitchen Garbage (Cooking Scraps), Wastepaper, Disposable Diapers, Shells

- Please be sure to remove excrement from disposable diapers.
- Be sure to drain off kitchen garbage before disposing of it.

#### Branches, Leaves, Grass, Cut Flowers

- Please put branches into the designated garbage bags before putting them out for collection.
- Please remove any dirt from leaves and grass before placing them in the designated garbage bags and putting them out for collection.
- Please take large quantities directly to the Clean Center.

#### Footwear (such as shoes), Leather Products (such as bags)

- As much as possible, try to remove metal fittings.

#### Dirty Plastic, Paper, and Cardboard Containers and Packaging

#### Futons and Blankets which are Small Enough to Fit in the Designated Garbage Bags

- Items which do not fit in the designated bags are classed as "Oversized Garbage".

- Please allow tempura oil to soak into paper or cloth, or cause it to solidify using a coagulating agent before disposing of it.
- Please put out newspapers, magazines, and cardboard as recyclable paper.

## Distribution Centers for Designated Garbage Collection Bags

Waste Reduction Promotion Section, Environmental Management Section at the City Hall, Fujimatsu Civic Center (Fujimatsu Branch Center), Hokubu Civic Center, Hitotsugi Welfare Center, Ogakie Civic Center, Higashi Kariya Civic Center. Maps of these locations can be found in the Kariya City Website: (<http://www.city.kariya.lg.jp/>): Information of living → Garbage, resources, recycling → Garbage, resources collection day → Collection of garbage day [clean calendar].

## When taking garbage to the facilities yourself

- L** Non-burnable Landfill Site
- R** Kariya City Recycling Center
- C** Clean Center

## What to Put Out at Garbage Stations (Locations for putting out "Recyclable Garbage" and "Non-burnable Garbage")

### Recyclable Paper

Collected twice a month

- R** **C** The three types that will be collected are newspaper, magazines, and cardboard.

#### Newspaper (including advertisements)

#### Magazines

Books, notebooks, pamphlets, catalogs, copy paper, calendars (remove any metal bits), envelopes, postcards, notepad paper, cardstock, drawing paper, penmanship paper, posters, paper file folders, etc.

#### Cardboard boxes

- Separate by type and tie in a tight package knot (plus-shaped knot).
- Separate by type at the garbage station.
- Use your local recyclable collection station as much as possible.
- Please exclude non-paper materials, including the clear plastic on envelopes with windows and metal bits on paper file folders.
- Make sure that small pieces of paper are put out so they don't make a mess by putting them into envelopes, inserting them inside magazines, etc.
- The following items should be disposed of as burnable garbage: Waterproof paper, paper cups, paper plates, carbon paper (e.g. for copying documents), thermal paper, photographs, shredded paper, stickers, photo albums, dirty paper.

### Plastic Containers and Packaging

Collected once a week

- R** This includes plastic containers and packaging that food products and daily necessities are packaged in. Look for this mark:

#### Plastic Bags, Plastic Wrap

Plastic bags used for the packaging of confectionery, bread, instant food products and clothing, and plastic shopping bags

#### Plastic Trays, Packs and Cups

Plastic trays for fresh produce, tofu containers, egg cartons, instant noodle containers, boxes from convenience store lunches, etc.

#### Plastic Bottles (other than PET)

Plastic bottles used for cooking oil, sauce, salad dressing, shampoo, detergent, mouthwash and eye-drops, etc.

#### Other

Netting used for mandarin oranges and onions, wrapping material used for apples or peaches, polystyrene wrapping material used to protect electrical appliances, plastic bottle caps

- Please make sure that the containers and packaging are empty and clean.
- If the containers are not clean, even after having been washed, please dispose of them as "Burnable Garbage".
- Plastic products classed as "Non-burnable Garbage" are not included in this classification.

### Paper Containers and Packaging

Collected twice a month

- R** This includes paper and cardboard containers and packaging that food products and daily necessities are packaged in. Look for this mark:

#### Paper Boxes

Confectionery, soap, detergent, cigarette, tissue, crayon, shoe and plastic wrap boxes

- Please remove any plastic sections.
- Please remove any staples from the boxes.
- Collapse boxes before disposal.
- If the cutting edge of the plastic wrap box is metal, please remove it and dispose of it as "Empty Steel Cans and Metal Items".

#### Paper and Cardboard Packaging Inserts

Paper and cardboard inserts from inside the packaging of business shirts and toothbrushes, and paper and cardboard packaging cases from puddings and yoghurt.

#### Paper and Cardboard Tubes and Cups

Paper and cardboard confectionery tubes and ice cream cups

#### Paper Bags

Paper bags, and packaging from disposable chopsticks

#### Wrapping Paper

Wrapping paper from department stores, etc., and paper used to wrap merchandise

#### Lids

Paper and Cardboard Seals from Ice Cream Containers, Instant Noodle Containers, and Milk Bottles, etc.

- If the items are not clean even after having been washed, please dispose of them as "Burnable Garbage".
- Please put out newspapers, magazines, and cardboard as recyclable paper.

### Plastic Bottles (PET)

Collected twice a month

\*Please take your emptied bags home as soon as possible after collection.

- R** **C** This classification only includes beverage, alcohol, and soy sauce bottles. Look for this mark:

- Please empty and rinse out bottles before putting them out for collection.
- If you have a large quantity of bottles, please crush them before putting them out for collection.
- Please dispose of the bottle caps and labels as "Plastic Containers and Packaging".

### Empty Glass Bottles

Collected twice a month

\*Please take your emptied bags home as soon as possible after collection.

- R** This includes glass bottles used for beverages such as soft drinks and alcohol, and those used for condiments and cosmetics.

- Please empty and rinse out bottles before putting them out for collection.
- If the bottle caps are metal, dispose of them as "Empty Metal Cans and Metal Items". If they are plastic, dispose of them as "Plastic Containers and Packaging".
- Please dispose of broken glass cups, dishes, crockery, and bottles as "Non-Burnable Garbage".

### Empty Steel Cans and Metal Items

Collected twice a month  
\*Please take your emptied bags home as soon as possible after collection.

- R** This includes steel (metal) cans, pots and pans, kettles (including those made of aluminum), tin cans (from canned food products), wire items (including wire clothes hangers), confectionery cans, scissors, cutlery, aerosol cans, and other metal items. Look for this mark for steel cans:

- Please empty and rinse out steel cans and canned food cans before putting them out for collection.
- After the contents of aerosol cans and tabletop gas cartridges have been used up, take them to a well-ventilated place, and completely remove all the gas (make a hole in them).
- Objects with blades should be safely wrapped in newspaper before disposal.

### Aluminum Cans

Collected once or twice a month

\*Please take your emptied bags home as soon as possible after collection.

- R** **C** This only includes aluminum beverage cans. Look for this mark:

- Please empty and rinse out cans before putting them out for collection.
- If you have a large quantity of cans, please crush them before putting them out for collection.
- Please dispose of aluminum products other than cans as "Empty Steel Cans and Metal Items".

### Non-burnable Garbage

Collected once a month  
\*Please take your emptied bags home as soon as possible after collection.

This is garbage which cannot be burned or recycled.

- L** Broken Bottles, Glass Products (such as cups), Light Bulbs, Broken Fluorescent Tubes, Ceramic Products (such as rice bowls and dishes), Enamel Products, etc.

- R** **C** Plastic Products (Hard plastic items which are not included in the "Plastic Containers and Packaging" classification)

- R** **C** Small Electrical Appliances and Items which are Composed of Various Materials and are Difficult to Classify (Excludes recyclable home appliances and personal computers)

- Put broken items into a bag or wrap them in newspaper, etc., so that they are not dangerous, before putting them out for collection.
- Bricks, roof tiles, earth, and blocks from residences cannot be collected. Please take them directly to the Non-burnable Landfill Site (Izumida-cho).
- Poke a hole in aerosol cans and tabletop stove canisters to release the gases inside. Then put them out with the empty steel cans and metal items.

# Oversized Garbage

"Oversized Garbage" refers to everyday living items which do not fit in the designated garbage collection bags.

## 1 When applying for door to door collection of oversized garbage (800 yen per piece)

Please call the information desk on **62-2000**.

As "Oversized Garbage" is collected every Wednesday, please apply for collection by the Monday of the week you wish the garbage to be collected.

Office hours are from 8:30 to 5:00 every day. The office is not open over the New Year Holiday period. (The office is not open between December 29 and January 3.)

## 2 When taking the items directly to the disposal and treatment facilities yourself

(The Clean Center is free of charge, and the Non-burnable Landfill Site is free of charge for loads up to 500kg.)

Take wooden, plastic and metal items (including bicycles) to the Clean Center.

Take glass, enamel, ceramic and concrete items to the Non-burnable Landfill Site.

Garbage which can be put out for collection can also be taken to facilities directly. Please refer to the other side of the page for details.

Cars to deliver oversized garbage are available. For further details, contact the **Waste Reduction Promotion Section** (tel. 21-1705) or the **Environmental Management Section** (tel. 95-0023) or the **Fujimatsu Civic Center (Fujimatsu Branch Center)** (tel. 36-1111), or check the Kariya City Website (<http://www.city.kariya.lg.jp/>): Information of living → Garbage, resources, recycling → The furtherance, support about garbage, resources → Import [rental of oversized garbage transportation vehicle] of garbage.

# Recyclable Home Appliances

(televisions, refrigerators/freezers, washing machines, clothes drying machines and air conditioners) As of February 1, 2016

The home appliances that are currently classed as recyclable are televisions, air conditioners, refrigerators/freezers, washing machines and clothes drying machines. \*First, ask the dealer from whom you purchased the product, or the dealer from whom you will purchase the new product.

The recycling fee may differ depending on the manufacturer. Be sure to check the manufacturer. In addition, you must pay a recycling fee and a collection and transportation fee (2,000 yen for ① below, and 1,200 yen for ② below) at a post office in Kariya City (including postal agencies).

## 1 When applying for door to door collection of recycled home appliances (recycling fee plus 2,000 yen)

Please call the information desk on **62-2000**.

Please refer to Section ① of "Oversized Garbage".

## 2 When taking items to the Clean Center or the Non-burnable Landfill Site yourself (recycling fee plus 1,200 yen)

After paying the recycling fee and the collection and transportation fee at a post office, take the items you wish to dispose of to the facility, along with the vouchers.

## 3 When taking items to the designated collection location (recycling fee only)

Call the Waste Reduction Promotion Section (tel. 21-1705), check the Kariya City Website (<http://www.city.kariya.lg.jp/>): Information of living → Garbage, resources, recycling → Separation, how to put out garbage → Disposal method of product targeted for household appliances recycling or check the Association for Electric Home Appliances, Home Appliance Recycling Slip Center Website (<http://www.rkc.aeha.or.jp/>).

Recycling Fee Listing	
Items	Fees (taxes included)
Television (up to 15 in.)	1,836 yen~
Television (16 in. and larger)	2,916 yen~
Fridge/Freezer (up to 170ℓ)	3,672 yen~
Fridge/Freezer (170ℓ and larger)	4,644 yen~
Washing machine or clothes drying machine	2,484 yen~
Air conditioner	1,404 yen~

# Garbage Which Cannot be Collected

- Items which have not been separated
- Items which are not in the designated garbage bags
- Bags which contain items which are not appropriate for them
- Unusually large amounts of garbage (Please take such garbage directly to the Clean Center or the Non-burnable Landfill Site)

## ● Hazardous garbage, garbage which cannot be processed at the disposal and treatment facilities

Fire resistant safes, farm equipment, pianos, electric water heaters, fire extinguishers, liquid oil, grease, paint, dangerous drugs, agricultural chemicals, propane gas cylinders, unused fireworks, and other items which have been specified by the disposal and treatment facilities

## ● Personal Computers

Direct disposal to the Non-burnable landfill site, door-to-door service by Renet Japan Inc., (1 box free) and each manufacturer's service are available. For details, confirm with the Waste Reduction Promotion Section (tel. 21-1705).

## ● Cars, motorcycles (including off-road motorcycles) and their parts

Please consult the dealer.

Industrial waste  
Call the Waste Management Section at the Nishi-Mikawa, Aichi Prefectural Office  
**0564-23-1211** (main line)

# Business Garbage

As a general rule, business garbage cannot be put out to be collected as a part of the city collection service.

For details on how to dispose of business garbage, call the Waste Reduction Promotion Section 21-1705 or check the Kariya City Website: (<http://www.city.kariya.lg.jp/>): Information of living → Garbage, resources, recycling → To all of establishments → About garbage going out of establishment.

## Used Dry Cell Batteries, Lighters, and Fluorescent Tubes

Please put used dry cell batteries, lighters, and fluorescent tubes in the special garbage collection boxes.

For details on the location of the garbage collection boxes, call the Waste Reduction Promotion Section 21-1705 or check the Kariya City Website: (<http://www.city.kariya.lg.jp/>): Information of living → Garbage, resources, recycling → Recycling → List of Collection Places for Used Dry Cell Batteries, Lighters and Fluorescent Tubes.

# KARIYA Kariya Garbage Separation Guide

⚠ Take care not to overfill the designated garbage bags.

<b>1</b>	18 liter cans (classed as "Non-burnable Garbage" if dirty)	Metal	Clothes Hangers (wood)	Burnable	Gas water heaters	Non-burnable-2	Soap	Burnable
